| | | 46 | R+3 | | | | | | |

Shaded = opposing party's seat. Bold/Italics = open seat. Letter in parenthesis in Toss-Up indicates incumbent party control.

PVI: modeled on the Cook Political Report's Composite Partisan Voting Index, which uses the 2004 & 2008 presidential voting percentages in each district against the state-wide presidential vote, then averages the differences to indicate the Republican & Democratic leaning at the district level.

*: due to geographic relocation of the new 88 district, a current incumbent (Martha Alexander) would reside in this district.
